AMUSEMENTS.

A GREAT "ALL STAR" FILM.

Tomorrow the Wigwam will show another of the All Star Film Corporation's productions. It is the best of the lot tous far and has everything to recommend it. "Soldlers of Fortune" is in six parts and has 255 scenes, taking over an hour and a half to run. Over 2,000 people had parts in it and Richard Harding Davis himself nelped in the producing. Dustin Farnum, the great American star, has the leading role and such actors as John Salapolis. John Pratt, Leighton Stark, George A. Stillwell, William Conklin. Sam Cott, Ernest Laceby, and Winthrop Chamberlain take part. The United States government loaned its marines from the gunboat "Oscoola" The Cuban spoternment did everything it could to assist even admitting rapid fire guns in violation of the law and denating nearly 2,000 of its soldlers for several secues. When a young man, long before he had written anything, Richard Harding Davis worked as a clerk at Santiago. He wrote his "Soldlers of Fortune" ten years later and wove the scenes around the places with which he was familiar. Now some fifteen or twenty years later he has the pleasure of seeing the children of his fancy live in these scenes. The film is a remarkable one and should please all who care for love, adventure and daring. Despite the big capacity of the Wigwam, it will undoubtedly be unable to hold all who will wish to see the big production at night. The management urgss all who can to come to the matines. Prof. Vergara plays every afternoon now from 2:20 to 5:30 o'clock so the mathematican are as attractive as the pick. A GREAT "ALL STAR" PILM. ergara plays every afternoon now rom 2:20 to 5:30 o'clock so the mat-nees are as attractive as the night erformances. "Soldiers of Fortune" 'ill be run tomorrow also. Today "An American King" will be the feature. It is in two parts and is a dandy romance. "The Dilemma." one of those inimitable Blograph

AT THE UNIQUE THEATER. AT THE UNIQUE THEATER.
George Kleine, whose name has become a household word all over this
country since he first launched his
marvelous photo drama production of
Que Vadis," is also sponsor for the
seautiful six part photo drama "The
last Days of Pompeli," which is announced for two nights, Thursday and
Friday, Feb. 26 and 27, at the Unique,
with matiness starting at noon. This
new production is a photo dramatizaow production is a photo dramatiza-on of Lord Bulwer Lytton's famous ovel of the same title and adheres osely to the text. The pathetic yet opeless love story of the lovely blind ower girl, Nydia, is related in pictor-id detail and finds sympathetic real detail and finds sympathetic reponse in every heart. All the wontrous beauties of the ancient city of
Compell and its surroundings, so
brillingly described in Bulwer's novel,
tre shown upon the screen and comtries a series of pictures that are a
lelight to the eye at all times. "The
ast Days of Pempeli" as produced by
dr. Kleine ranks among the big photo
trama achievements of the age. Mr. Kleine ranks among the big photo drama achievements of the age.

This is pronounced the most beautiful and elaborate photo drama produced since George Kleine's "Quo Vadla" startled this country, is "The Last Days of Pompell," taken from Lord Bulwer Lytton's classic novel of the same name. It is a gem and worthy of the reputation of Mr. Kleine, who is also sponsor for it. The whole delightful love tale is told in a series of exquisite pictures, veritable triof exquisite pictures, veritable tri-umphs of the photographer's art. The engagement here will begin at noon. Moose Order Desires to Establish Sanatorium Here.

El Pasoans are keenly interested in be announcement in The Herald yeserday that the Loyal Order of Moose estres prices on 1000 acres of irricable land in this valley, for the purose of establishing a tuberculosis anatorium. The committee of the upreme lodge has visited El Paso nd has expressed its desire to locate be great national institution in this alley if suitable land can be bought acceptable prices.

and has expressed its desire to locate the great national institution in this valley if suitable land can be bought at acceptable prices.

The Loyal Order of Moose, which is one of the largest and strongest of the national fraternal organizations has \$500,000 in hand with which to purchase sites for sanatoriums Millions will be available to pay for establishing the institutions.

The Moose order has an annual income of \$5,000,000. Each of the \$20,000 members contributes \$1 per year specially for the support and extension of the splendid work at Mooseheart, the home and school sattlement of the order near Aurora, III, where nearly 1000 acres are in use for farming, dairying, industrial schools and homes for the aged, and for widows and orphans.

A similar plan will be adopted for the adequate support of the national tuberculosis sanatorium of the Moose creer. It is easy to see what a tremendous asset such an institution would be to this valley.

Owners or agents having lands to offer are invited to communicate with Dr Felix P. Miller, the local representative, at his office 201 Caples building; phone 1475. The offers will be laid before the committee of the supperse lodge, which will make the final recommendation.

The land must be susceptible to Irrigation, and the committee expresses preference for lands under the canals from the Elephant Butte project. But lands susceptible to irrigation, and the committee expresses preference for lands under the canals from the Elephant Butte project. But lands susceptible to irrigation by pumping, and not under the project, will also be considered.

The quality of the land must be of the very highest. The farm at Mooseheart in Illinois, is a show place for the whole surreunding country, producing 40 bushels of wheat, \$6 bushels of oats, or 100 bushels of corn to the acre, and stocked with the finest dairy stock and beef cattle, prise hogs, highly bred draft animals, and poultry.

The idea helind the proposed El Paso valley sanatorium is not that

dairy stock and beef cattle, prize hogs, highly bred draft animals, and poultry.

The idea behind the proposed El Paso valley sanatorium is not that of a mere resort or hospital, but rather that of a self supporting farm where men, women, and children can come and vork outofoors under the best conditions of health, and produce not merely their own living, but a substantial profit.

It is easy to see that the success of such an institution would necessarily mean the development of the 1600 acres to the highest pitch of farming excellence; the Moose Sanatorium farm would be one of the linest show places in this valley.

The Loval Order of Moose has \$5,500,000 assets. Last year it distributed \$2,000,000 in benefits. The growth of the order has been most remarkable. Starting in 1906 with 243 members, the membership had grown in 1910 to 190,000, in 1912 to 520,000, and in 1912 to 520,000. Dues are only \$1 a month with no assess-
